

Assistant/Associate/Full Professor/Visiting Position/Postdoc Positions in Faculty of Economics and Business Administration (FEBA), Southern University of Science and Technology (SUSTech), Shenzhen, China

The University Profile

Southern University of Science and Technology (SUSTech) was officially established in April 2012. It is a public university funded by Shenzhen city and the chair of the university council is the mayor. Shenzhen has developed from a small fishing village 40 years ago to a modern metropolitan city with more than 20 millions in population. It is regarded as China's Silicon Valley where numerous world's well-known corporations are headquartered here, including Huawei, Foxconn, Tencent, ZTE, BYD, etc. In the year 2017, its GDP has exceeded Hong Kong's for the first time in history. Shenzhen has been ranked to be the No. 1 competitive city in Greater China region and No. 6 in the world, by the United Nations Human Settlements Program and Chinese Academy of Social Sciences. Lonely Planet has ranked Shenzhen the second most attractive city of the world for the 2019 Travel-List.

SUSTech is a pioneer in higher education innovation of China, covering five hundred acres of wooded landscape in the picturesque Nanshan (Mountain South) area with an idyllic environment suitable for learning and scholarship. It is the unique university in mainland China where English is largely adopted as a teaching language across campus. With the strong support from Shenzhen city, SUSTech has developed rapidly and been approved to offer Bachelor, Master and Doctorate Degree programs by the Ministry of Education of China.

SUCTech has been officially ranked among the top four universities worldwide in the Nature Index 2018 (Rising Stars) that tables the top 200 institutions of the world in September 2018. In addition, for the world's young universities established after 1988, the Nature Index 2018 (Rising Stars) reported that SUSTech, being officially set up in 2012, was ranked as No.1, overtaking Hong Kong University of Science and Technology (HKUST), which was founded in 1991 and ranked as No.9.

According to the Times Higher Education World University Rankings 2019 that is one of the top 3 well-known higher education accreditation and ranking agencies in the world, SUSTech, being ranked for the first time in its six years' establishment history, was ranked No.8 among the listed mainland China universities.

Faculty Positions in FEBA

FEBA is fast-growing with four divisions including Applied Economics and Finance, Management Engineering & Information Systems, Business Administration, and Public Policy and Administration. SUSTech (including FEBA) offers Master and Doctor programs in Business Analytics as well as joint Master and Doctor programs in Business Analytics collaborating with top-tier international research universities of the world, including UBC (University of British Columbia, Canada), Warwick Business School (UK), University of Queensland (UQ, Australia), Fox Business School of Temple University (USA), National University of Singapore (NUS, Singapore), HKUST, etc.

HEC Paris, the ranked No.1 business school of Europe for eight consecutive years by Financial Times, has become a strategic partner of FEBA recently. HEC's finance, strategic management and leadership programs are among the best in the world.

FEBA also has official partnerships with other top business schools of North American, Europe and Asia.

FEBA invites applications for full time, tenured/tenure-track faculty positions (at any level: Assistant, Associate, or Full Professor), as well as postdocs, in management science, operations management, supply chain management, information systems, business analytics/intelligence, big data analysis & management, and FinTech, etc.. Applications from other business and management related areas are also welcome, especially those with cross-disciplinary background and research experiences, such as from business administration (strategy, innovation, organization behavior, entrepreneurship, human resources management, marketing), applied economics, public policy and administration, accounting, and finance/insurance. Qualified applicants with leadership experiences may be considered as a candidate for a department chair or vice dean.

FEBA also welcomes established or young faculty to apply for visiting assistant/ associate/full professor position (given the excellent climate in the Fall and Winter as well as the good air quality of the city, it would be an attractive choice for faculty to do Sabbatical leave who could spend 3-12 months here).

Applicants should (i) be a promising or established scholar with a doctoral degree (or close to completion) from an established university; and (ii) demonstrate a specialty in the above fields. The appointee will be expected to (i) have ability to teach postgraduate and undergraduate courses; and (ii) publish research papers in top-tier journals in related fields.

Salary and Fringe Benefits

Salary will be highly competitive, commensurate with qualifications and experience. SUSTech offers a comprehensive fringe benefit package, including medical care and housing benefits for eligible appointees. Qualified applicants are sponsored to apply for numerous Talents Programs. Those successful applicants could receive research fund ranging from 2 to 10 million RMB and the living allowance ranging from 1.6 to 6 million RMB (tax-free) besides national incentives. The terms mentioned herein are for reference only and subject to updating by SUSTech and the funding agencies.

Postdoc Positions (and PhD Candidates)

FEBA seeks applications for postdoc positions with expertise in a broad and related field, including cross-disciplinary fields like big data/business analytics, FinTech,

intelligent manufacturing management, credit and risk management, etc. Salary will be competitive, ranging from up to 300 or 400 thousand RMB annually, commensurate with qualifications and experience. There are additional allowances provided by Shenzhen city or Guangdong province for eligible appointees, such as 1.6 or more million RMB (tax-free) for those qualified talents awarded from Shenzhen Peacock Plan. The terms mentioned herein are for reference only and are subject to updating in due time. The postdoc is a two-year contract, renewable for one additional year depending upon academic performance. (FEBA also admits PhD students in business analytics and big data application all the year around).

Application Procedure

Application letter with a full up-to-date C.V.; one research statement and one teaching statement; copies of three selected research publications; three reference letters, should be sent to the Search and Appointment Committee of FEBA, SUSTech [email: feba@sustech.edu.cn]

Review of applications will start immediately and continue until the positions are filled. Only shortlisted candidates will be notified for campus interviews. For inquiries, please contact the recruitment secretary Lili Liu [email: liull3@sustech.edu.cn] and assistant professor Shaobo (Kevin) Li [email: lisb3@sustech.edu.cn].
